7	Other short-term liabilities** as a % of Total Public Funds	N.A.
8	Other short-term liabilities as a % of Total Liabilities*	33.55%
9	Other short-term liabilities as a % of Total Assets	22.03%

Note:-
** Total Liabilities exclude Networth of the company.*
*** Other short-term liabilities represent Borrowings maturing within one year.*

(v) Institutional set-up for liquidity risk management -

The Board of Directors of the Company has an overall responsibility and oversight for the management of all the risks, including liquidity risk, to which the Company is exposed to while conducting its business. The Board approves the governance structure, policies, strategy, and the risk limits for the management of liquidity risk.

The Board of Directors approved the constitution of the Risk Management Committee (RMC) for the effective supervision, evaluation, monitoring and review of various aspects and types of risks, including liquidity risk, faced by the Company. The meetings of RMC are held at quarterly intervals and more frequently as warranted from time to time. Further, the Board of Directors also approves constitution of Asset Liability Committee (ALCO), which functions as the strategic decision-making body for the asset-liability management of the Company from risk return perspective and within the risk appetite approved by the Board.

The main objective of ALCO is to assist the Board and RMC in effective discharge of the responsibilities of asset-liability management, market risk management, liquidity, and interest rate risk management and to ensure adherence to risk tolerance/limits set up by the Board. ALCO provides guidance and directions in terms of interest rate, liquidity, funding sources, and investment of surplus funds. ALCO meetings are held once a month. The minutes of ALCO meetings are placed before the RMC in its next meeting for its perusal/approval/ratification.

Liquidity Coverage Ratio (LCR) -

The Liquidity Coverage Ratio (LCR) is a global minimum standard to measure the Company's liquidity position. The Reserve Bank of India introduced the liquidity coverage ratio (LCR) requirement for all deposit taking NBFCs and non-deposit taking NBFCs with an asset size of Rs. 5,000 crore and above. LCR seeks to ensure that the Company has an adequate stock of unencumbered High-Quality Liquid Assets (HQLA) that can be converted into cash easily and immediately to meet its liquidity needs under a 30-day calendar liquidity stress scenario. LCR is calculated by dividing the stock of HQLA's by its total net cash outflow over a 30 day calendar period.

The Company has adopted the liquidity risk framework in the ALCO policy of the company as required under RBI regulation. It ensures a sound and robust liquidity risk management system by maintaining sufficient liquidity through inclusion of a cushion of unencumbered, high quality liquid asset to withstand a range of stress events, including those involving the loss or impairment of both unsecured and secured funding sources. The Board of Directors has delegated responsibility of balance sheet Liquidity Risk Management to the Asset Liability Committee as per the ALCO policy of the Company.

(Rs in Lakhs)

Particulars		Jul - Sep 2024	
		Unweighted Value	Weighted Value
High Quality Liquid Assets			
1	Total High Quality Liquid Assets (HQLA)		
	- Cash	142.29	142.29
	- Bank Balance	9,114.63	9,114.63
